Item 8.01 Other Events

Newfield Exploration Company (the “Company” or “Newfield”) today provided the following updates in conjunction with its planned appearance at the Goldman Sachs Energy Conference (the “GS Presentation”) in Miami, Florida.

- For the fourth quarter of 2018, Newfield expects that its total domestic net production, stated on a barrel of oil equivalent basis, will be at the high end of its previously stated guidance range of 185 – 200 MBOE/D. Newfield’s international oil liftings for the fourth quarter were approximately 237,000 net barrels and also at the high end of previous guidance.
- For the fourth quarter of 2018, Newfield expects that its daily net liquids production in the Anadarko Basin will be above the high end of its previously stated guidance range of 80 – 86 MBbls/D. Net oil production from the Anadarko Basin in the fourth quarter of 2018 is expected to be above the mid-point of its previously stated guidance range of 42 – 44 MBO/D and will compare favorably to its original fourth quarter estimate of 42 MBO/D provided at the beginning of 2018. The Company also provided updated BOE and oil production data (out through 160 days) for several of its recent black oil infill development drilling projects in the Anadarko Basin’s STACK play. The data for these 34 infill wells can be found in the accompanying chart included in the GS Presentation.
- Newfield’s preliminary determination of year-end 2018 proved reserves is expected to result in an increase of more than 100 MMBOE (or 15%) year-over-year to over 780 MMBOE (~99% domestic). The largest source of expected reserve additions came from the Anadarko Basin, where estimated reserves grew by approximately 118 MMBOE and now total more than 545 MMBOE and comprise 70% of Newfield’s total company reserves. The Company expects to have replaced approximately 240% of its 2018 full-year production volumes with the anticipated addition of new proved reserves. The anticipated proved reserve life index for Newfield is approximately 11 years.
- Newfield invested approximately \$1.4 billion in 2018, in line with previous guidance. The total investments exclude approximately \$115 million of capitalized interest and internal costs.

A copy of the GS Presentation is furnished herewith as Exhibit 99.1.

The information in Item 8.01 of this Current Report, including the exhibit attached hereto as Exhibit 99.1, is being furnished and shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. The information in Item 8.01 of this Current Report shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended, except as otherwise expressly stated in such filing.

Reserves Disclosure

Actual quantities that may be ultimately recovered from Newfield's assets may differ substantially from the estimates in this communication. Factors affecting ultimate recovery include the scope of Newfield's ongoing drilling program, which will be directly affected by commodity prices (including our ability to hedge commodity prices) and our pre-tax wellhead rates of return, the availability of capital, drilling and production costs, availability of drilling services and equipment, drilling results, lease expirations, transportation and processing constraints, regulatory approvals and other factors, and actual drilling results, including geological and mechanical factors affecting recovery rates and commodity mix. Newfield may use terms in this communication, such as "EURs," "unrisked locations," "risked locations," "net effective reservoir acreage," "upside potential," "net unrisked resource," "gross EURs," and similar terms that the SEC's guidelines strictly prohibit in SEC filings. These terms include reserves with substantially less certainty than proved reserves, and no discount or other adjustment is included in the presentation of such reserve numbers. Investors are urged to consider closely the oil and gas disclosures in Newfield's 2017 Annual Report on Form 10-K and subsequent public filings, available at www.newfield.com, www.sec.gov or by writing Newfield at 4 Waterway Square Place, Suite 100, The Woodlands, Texas 77380 Attn: Investor Relations.
